CNIC gets on the move with the Carrera del Corazón fun run

03/10/2023

Nothing is better for cardiovascular health than practising what you preach.

That’s why a group of investigators from the Spanish National Centre for Cardiovascular Research (CNIC) participated in the **14th *Carrera Popular del Corazón*** fun run organised by the Spanish Heart Foundation.

Promoting cardiovascular health with this type of initiative is a great idea as it makes the whole community aware of the concept of heart health.
