Dr Valentín Fuster receives the prestigious Lifetime Achievement Award of the World Heart Federation (WHF

27/05/2024

The World Heart Federation (WHF) presented Dr Valentín Fuster with its Lifetime Achievement Award 2024. The award acknowledges his notable contributions in the field of cardiovascular disease and his particular devotion to combating this disease around the world. The prestigious award recognises the international leadership Dr Fuster has displayed over the last four decades and his ground-breaking contributions to cardiovascular medicine, both in the field of research and from the clinical perspective and, more recently as champion of cardiovascular health worldwide.
