
El CNIC en el Congreso Europeo de Cardiología 2026

01/08/2026

El [Centro Nacional de Investigaciones Cardiovasculares Carlos III](#) (CNIC) tendrá una destacada presencia en el [Congreso de la Sociedad Europea de Cardiología](#) (ESC Congress 2026) con una intensa agenda científica que incluye la presentación de ensayos clínicos de referencia, investigaciones básicas y traslacionales, documentos de consenso europeos, conferencias magistrales, mesas redondas, sesiones clínicas y presidencias de sesión.

Consulta aquí una muestra de la destacada participación del CNIC:

Viernes, 28 de agosto

- 09.15

Sesión: *Frontiers in amyloid heart disease: from treatment to cure*
[Clearing deposited amyloid: antibody-based depletion](#) (Pablo García Pavía)

- 09:19 h

Sesión: *Non-conventional risk factors for cardiovascular disease and how to deal with them*
[Depression and psychosocial adversity: from mechanism to manageable risk factor](#) (Héctor Bueno)

- 10:45 h

Sesión: [Clinical Cases: Non-bacterial endocarditis: complex management decisions illustrated through cases](#)
Moderador: Carlos Nicolás Pérez García.

- 11:00 h

Sesión: *Building the next-generation care models in cardio-oncology*
[Clonal haematopoiesis as a new driver of cardiovascular risk](#). (José Javier Fuster)

- 11:30 h

Sesión: *Beyond the guidelines: closing outcome gaps in cardiovascular care in ethnically diverse populations*
[Cardiovascular care for women in different parts of the world: challenges and solutions](#) (María Rubini Giménez)

- 12:30 h

Sesión: *Macrophage biology and inflammation in cardiovascular disease (Abstract Session)*
[HDL-associated phosphatidylserine modulates the myeloid compartment and protects from atherosclerosis](#) (Aurora Bernal)

Sábado, 29 de agosto

- 08:30 h

Sesión: *Automated decision-making and new forms of choice: are machine learning and generative*

models in medicine support or risk tools? (Special Session)

[Acute cardiovascular care: triage support, risk prediction, and workflow optimisation in emergency settings.](#) (María Rubini Giménez)

- 08:45.

Symposium: Cardiovascular prevention in 2026: from novel tools to societal impact [Imaging and subclinical atherosclerosis: enabling precision prevention](#) (Valentin Fuster)

- 09:00

Sesión: [REACT - Prevalence of silent atherosclerosis across adult life Speaker: Henning Bundgaard \(Rigshospitalet - Copenhagen University Hospital - Copenhagen, Denmark\)](#)

Discussant review - REACT Speaker: Isabel Goncalves (Lund University - Malmo, Sweden)

Panel discussion - REACT

- 11:00 h

Sesión: [The floor is yours: bring your questions on hormonal replacement therapy and cardiovascular health.](#)

Moderadora: María Rubini Giménez.

- 13.45

Sesión: [Cutting-edge science in dilated cardiomyopathy](#)

Moderador: Pablo García-Pavía.

- 14:30 h

Sesión: [Clinical Cases: Cases of prosthetic valve endocarditis: learning from experience.](#)

Moderador: Carlos Nicolás Pérez García.

Sábado, 30 de agosto

- 08:15 h

Sesión: [Illustrative cases of cardiovascular disease in women \(Clinical Cases\)](#)

Moderadora: María Rubini Giménez.

- 12:00 h

Sesión: [Young Investigator Award Session in Cardiovascular Disease in Women](#)

Moderadora: María Rubini Giménez.

- 12.30

Session: Fireside Chat: fireside with the legends

[Fireside Chat: fireside with the legends](#) (Valentin Fuster)

- 13:45

Sesión: Preventing heart failure

[State-of-the-art lecture on preventing heart failure.](#) (Borja Ibáñez)

13:45

Sesión: Late-Breaking Clinical Science: cardiac amyloidosis

[Efficacy and safety of transthyretin gene silencer eplontersen in patients with transthyretin amyloid cardiomyopathy receiving stabiliser therapy in the CARDIO-TTRansform trial](#) (Pablo García Pavía)

- 16.15

Session: Cardiovascular prevention in children and adolescents

[Tools for primordial prevention of cardiovascular disease](#) (Valentin Fuster)

- 17:15 h

Sesión: [Ischaemia-reperfusion injury: new biological mechanisms of repair](#)

Moderador: Carlos Galán (CNIC)

Domingo, 31 de agosto

- 11:11 h

Sesión: Made Easy Series – Solving the well-being crisis in healthcare professionals
[How to build work-life integration](#) (María Rubini Giménez)

- 11:15

Sesión: Great Debate: no more beta-blockers for post-myocardial infarction patients with preserved left ventricular ejection fraction

[No more beta-blockers for post-myocardial infarction patients with preserved left ventricular ejection fraction: pro:](#) (Borja Ibáñez)

- 13:15 h

Sesión: [Improving understanding of disease in dilated cardiomyopathy \(Moderated ePosters\)](#)

Moderador : Enrique Lara-Pezzi (CNIC)

José Javier Fuster ESC Outscience Achievement Award (confirmar fecha)
