

**POSITION OPEN:
JUAN DE LA CIERVA-FORMACIÓN (2019-2020)**

We are looking for candidates to apply for a Postdoc “Juan de la Cierva–Formación” position in the laboratories of Dr. Miguel Torres (Genetic Control of Organ Development and Regeneration) and Dr. Ignacio Flores (Regeneration and Aging) at the CNIC.

The Postdoc will study the role of Myc and telomerase in heart regeneration. Our groups used a combination of advance mouse models, cellular, molecular biology, imaging and sequencing technologies to study endogenous mechanisms of heart regeneration. We are funded by CNIC, CAM, MICIU, and H2020.

REQUIREMENTS

Candidates must possess a PhD in the fields of Biology or Biomedical Sciences.
At least one article as a first author.
Applicants must have defended the doctoral thesis from 01/01/18 to 31/12/2019
