

INVESMIR Programme

Ninth call

List of Researchers and Research Lines 2016

Researcher/ Supervisor	Research Line	Nº of students	e-mail address
V. Andrés	Role of A-type lamins in aging and cardiovascular disease	1	vandres@cnic.es
J. A. Cebollada	Genotype/phenotype relationships in hypertrophic cardiomyopathy	1	jorge.alegre@cnic.es
J. A. Enriquez	Functional analysis of OXPHOS System related to Cardiovascular Diseases	1	jaenriquez@cnic.es
D. Filgueiras	Predictors in the Effective Termination of Paroxysmal Atrial Fibrillation through the use of Atrial-specific Ionic Currents	1	david.filgueiras@cnic.es
B. Ibáñez	Challenging Therapeutic Strategies and Imaging Technology in Myocardial Infarction	2	bibanez@cnic.es
P. Martín	Control of inflammation by regulatory molecules and miRNAs in cardiovascular diseases	1	pmartinf@cnic.es
J.M. de la Pompa	Functional studies of cardiac development and congenital heart disease of valves and ventricles	1	jlpompa@cnic.es
M. Ricote	New approaches for targeting myocardial infarction: role of nuclear receptors	1	mricote@cnic.es
G. Sabio	Role of p38MAPK in cardiac metabolism and function	1	guadalupe.sabio@cnic.es
