Second Evaluation Report of the 2025 Cicerone Call

After reviewing the CVs and qualifications of the candidates admitted to the selection process for the Cicerone positions, the evaluation committee for each research line has published the results of the second evaluation in the merit-based competition. The resignations of certain candidates have been taken into account, and their positions have been offered to the next most qualified candidates in each case. Candidates who have declined their positions are specifically indicated in the corresponding research line.

The legend of merit scores can be found at the end of this document.
